Filing cabinets are made of steel sheet with a base made of zinc galvanized steel sheet. Drawers are installed on double extension ball bearing slides, protected against falling out. Cabinets have a special mechanism allowing for opening of only one of the drawers at a time which protects the cabinet against tipping. Drawers are equipped with a central locking mechanism. Maximum load capacity of each drawer is approx. 50 kg. There are self-adhesive cardholders available in relation to the number of drawers. Cabinets are equipped with the shims for levelling. Cabinets available in various price versions. Additional equipment available at an extra cost: - supports for drawers, - top plate. Assembly not necessary. Delivery costs are not included, but this can be agreed separately.
