Metal social furniture guarantees functionality and an aesthetic value of social spaces in factories, schools, sports halls, fitness clubs, swimming pools etc. Proper arrangement of those rooms, taking into consideration a wide range of requirements and needs, guarantees a sense of well-being and increases the standards of workplace. The main advantage of SUM W, SUS W, SUL W lockers produced on the new line is advanced construction based on closed profiles, which are implemented in sides of doors, in the middle of the body and in the bottom of a locker. Lockers are certified, approved and they meet EU safety standards. In order to make use of small spaces as cloakrooms, an ideal solution is our L-shape wardrobe locker. Thanks to SUL W lockers, one can place twice as many wardrobe compartments than in the case of standard wardrobe lockers. Welded construction based on closed profiles affects the rigidity of the wardrobes. Wardrobe lockers SUL W are made in two widths: - 300 mm, - 400 mm. Ventilation in cabinets is done through a system of perforation which allows free circulation of air. Available locks: 1-point lock. Assembly not necessary. Delivery costs are not included, but this can be agreed separately.
